

RESEARCH INTERESTS

Computational psycholinguistics; computational pragmatics; language learning and adaptation; human–language model comparison; theory of mind and pragmatic reasoning.

EDUCATION

- **Saarland University** Saarbrücken, Germany
M.Sc. Language Science and Technology (Incoming Student) Oct 2026 – Expected Sep 2028
- **Southwest University** Chongqing, China
Bachelor of Arts in English Sep 2018 – Jun 2023
 - **Selected Coursework:** Introduction to Linguistics; English Lexicology; Psychology Development and Education; Higher Mathematics I; Introduction to Programming (Python-based); C Language Programming; Foundations of Computing I.

RESEARCH EXPERIENCE

- **Intent Classification in Online Narratives: Advice-Seeking vs. Self-Disclosure** Independent Research
Personal Project 2024 – 2025
 - **Study Design:** Investigated pragmatic intent classification across three Reddit domains to distinguish advice-seeking from self-disclosure using discourse features and n-gram surprisal analysis.
 - **Methodology:** Manually annotated 300 posts; built TF–IDF baselines with interpretable discourse features; trained class-conditional trigram language models on weakly labeled data ($N = 1,630$).
 - **Findings:** Achieved 0.642 macro-F1 with discourse features after artifact removal. Cross-domain generalization exposed differences between judgment-seeking and action-seeking communities, suggesting that pragmatic intent is strongly shaped by community context.
- **The Effects of Task Type on Lexical Complexity in EFL Writing** Southwest University
Bachelor’s Thesis — Grade: 85/100 2023
 - **Experimental Study:** Investigated how propositional, outline-based, material-based, and continuation tasks affect lexical density, sophistication, and variation in 40 high-school students’ writing.
 - **Quantitative Analysis:** Used the Lexical Complexity Analyzer and SPSS (ANOVA and nonparametric tests) to compare lexical outcomes across task types.
 - **Findings:** Found that outline-based tasks increased lexical sophistication, while reading-to-write tasks improved lexical variation.

SELECTED ACADEMIC TRAINING

- **European Summer School in Logic, Language and Information (ESSLI)** Prague, Czech Republic
Summer School Participant Aug 2026
- **CreteLing Summer School** Rethymno, Greece
Summer School Participant Jul 2026
- **European Summer School in Logic, Language and Information (ESSLI)** Leuven, Belgium
Summer School Participant Jul 2024 – Aug 2024

TEACHING EXPERIENCE

- **Wuhan Changchun Street Primary School** Wuhan, China
English & Music Teacher Aug 2024 – Sep 2026
 - Taught English to five Grade 3 classes (260+ students), developing curriculum-aligned assessments and instructional materials.
 - Taught music electives, led an after-school Music Club, and co-organized school arts activities integrating language and performance.
- **Hanyang No.1 High School** Wuhan, China
English Teacher Aug 2023 – Aug 2024
 - Taught two Grade 10 English classes (100+ students), designing lessons, assessments, and instructional materials.
 - Founded an English Writing Workshop integrating creative and academic writing; designed an interdisciplinary elective on musical theatre appreciation.
- **Chongqing Nankai Secondary School** Chongqing, China
Teaching Intern, English Department Mar 2022 – Jun 2022
 - Designed and delivered independent reading, writing, and listening lessons for Grade 10 students.
 - Co-developed an extracurricular reading module and assisted with lesson planning, grading, translation, and teaching seminars.

HONORS & AWARDS

- **National College Computer Design Contest — National Third Prize (Original Music Group)** 2021
 - Lyricist and composer; led creative concept and musical design, produced digital audio, and prepared presentation materials integrating narrative and sound design.
- **University Third-Class Scholarship**, College of International Studies, Southwest University (2021–2022)

- **University Third-Class Scholarship**, School of Computer and Information Science, Southwest University (2018–2019)

TECHNICAL SKILLS

- **Programming:** Python (Intermediate), R, C (Basic), HTML/CSS
- **Machine Learning & Data:** NumPy, pandas, scikit-learn, PyTorch (Basic)
- **NLP & Research:** Text preprocessing, TF-IDF, n-gram language modeling, manual annotation, statistical analysis
- **Tools:** Jupyter, Git/GitHub (Basic), L^AT_EX, Excel
- **Languages:** Mandarin (Native), Cantonese (Near-native), English (Fluent), German (Beginner), Japanese (Basic)
